

Congratulations! Your toll free number will be active in 1 business day ringing to:

DON'T FORGET that our courtesy temporary service is only for the first 30 days or 100 minutes, whichever comes first. You own the number but only as long as you keep it ACTIVE or in service by paying whatever phone company you select for the forwarding. If you stop paying them or disconnect the number, it'll be considered abandoned / no longer wanted.

IF THE NUMBER isn't transferred during the initial 30 days it goes into FREE PARKING for ONE YEAR. The calls don't get forwarded. It's just sits waiting for you to get your ducks in a row and transfer it to whatever company you want to use. If it's still here after the year of free parking expires, a parking fee is due. If that parking fee isn't paid after another year, the number is considered abandoned / no longer wanted.

WHATEVER COMPANY you want to transfer the number to and use for the forwarding will give you a form (which may be attached) authorizing them to take over the # and telling them where to send the calls and who to bill for it. Fill that out and send it back to them, with this document as your proof of ownership. They will get it ready and then send it to us when they're ready for us to release the #.

THIS DOCUMENT CONTAINS the following items:

1. Your Toll Free Birth Certificate™,
2. A sample bill copy in case your phone company requests it to transfer your toll free number.
3. An explanation of the Transfer Process
4. Some phone company recommendations or if you gave us a referral code, we may attach the Respong Change Form (or LOA) to transfer the # to that company.

YOUR # IS NOW READY TO TRANSFER TO YOUR PHONE COMPANY FOR THE ONGOING SERVICE. START THE TRANSFER PROCESS NOW TO INSURE YOU HAVE NO INTERRUPTION IN SERVICE, ESPECIALLY IF YOU'RE STARTING ANY MAJOR ADVERTISING.

This is your official bill for your new toll free number. This number is active in the name above and can now be transferred as an existing toll free number to any phone company you chose. This bill **MUST** be accepted by any carrier requesting a bill copy in order to transfer your toll free number. Any phone company with questions about this bill can call 1-800 MARKETER for confirmation and otherwise must accept this as proof of ownership and cannot reject this transfer request internally without submitting it.

Also please realize that while most phone companies drag their feet and look for reasons to reject transfer requests for any little thing, 1800MARKETER sets up specific numbers for clients and requires them to transfer to another company so we actually look for reasons to accept them instead.

The company you're transferring the number to will tell you that everything must match exactly and that is true for most companies, but we do **NOT** require everything to match exactly. We need enough matching information to know that we are releasing the number for the right customer. If you are using a different name just include the toll free birth certificate so we know it's coming from the right organization.

We try to release numbers the same day or within one business day rather than the typical 3 to 5 days of most carriers. We even try to expedite transfers if necessary, especially for situations with existing or imminent advertising.

Congratulations! Your toll free number will be active in 1 business day ringing to:

Congratulations you can start the transfer process and put it into print

We help you get the best number and then help you transfer it to whatever company you want to use for the ongoing service with no strings. For some companies we include the transfer form, with the toll free birth certificate, if you let us know what phone company you requested with the order and we have their forms.

It's usually called a Respong Change Form or sometimes a Letter of Authorization (LOA) because it authorizes them to take over the number, and tells them where to send the calls and who to bill. If it's not at the end of this document, just contact your phone company you're transferring it to.

You'll give that back to them with the toll free birth certificate, your proof of ownership, and they'll put it into their system then send it to us (the releasing resporg) when they're ready for us to release it. We release them faster than anyone usually the same day or within 1 business day and send you an email to let you know it's been released too.

Toll Free Birth Certificate

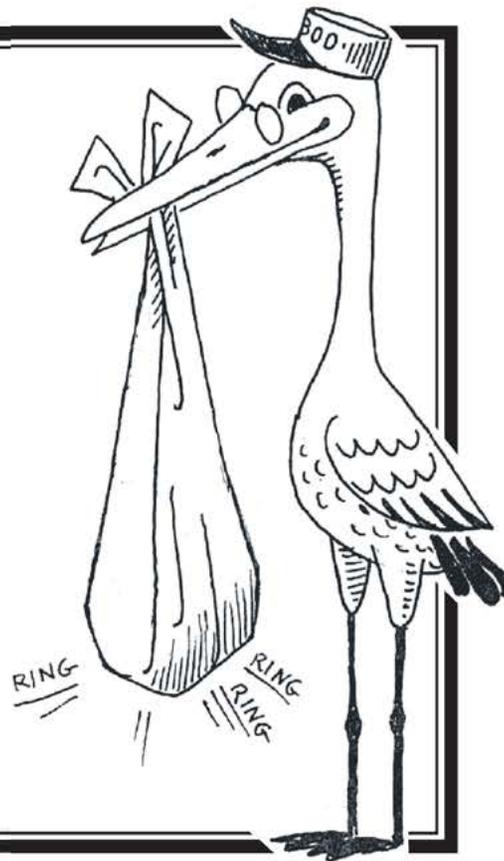

Certificate #

Toll Free #:

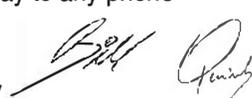

Date:

Ring to:

Born to:

This official document certifies the official date which the toll free number was activated by Resp-Org (id. QZA01). The person or organization listed above is the true end user and can transfer this toll free number away to any phone company in any name.

Bill Quimby 
Certified SMS/800 Administrator

The end user above can transfer this number to any toll free provider they select by obtaining, completing and returning that company's Respong Change Form (sometimes called an LOA). You get this form from the new carrier or it may be attached. Please include this certificate with that request form and consider this the equivalent of a phone bill for any company that requests a bill copy in order to process transfer requests, even if the name and address at the new carrier or on the request is different. Call 1-800 MARKETER for any additional info.

Resp-org (and it's parent company TollFreeNumbers.com) provides a unique independent third party respong service dedicated to providing customers better toll free numbers. They do not provide traditional long distance or ongoing toll free service so the customer above MUST transfer their number to another carrier for the ongoing service or pay for parking after the first free year. We refer to the end user as the OWNER of the number, but please note that it MUST BE MAINTAINED. Just because you own something doesn't mean you don't have to maintain it and keep it active somewhere after you transfer it, or after the free parking ends.
